

Flex Timer - measures operation time

Use

Registers the total operational hours for a wide variety of machines and equipment. Even the smallest vibrations activate the Flex Timer.

Among other things the Flex Timer is used for rental of machinery (contractors) and control of service intervals.

Functions

- Registers total operation time - hours and minutes

Installation

The timer is mounted directly on the machine or equipment in a way so that the Flex Timer is protected.

To avoid unintended unmounting, we recommend sealing the Flex Timer.

Technical specifications

Size:	114 x 72 x 33 mm
