

Flowmeter for slurry

Use

This high precision flowmeter for slurry can be mounted on both new and older slurry wagons. In combination with a Lykketronic computer the flow can be monitored or controlled.

Function

- Impulses according to actual flow
- Very high precision

Installation

Please refer to installation guidelines.

Technical specifications

Voltage:	10 – 17 V DC
Working pressure:	PN 10
Enclosure:	IP 67
Weight:	App. 10 kg
Power:	< 2,5 A
Signal type:	NPN open collector, max. 25 V max. 100 mA

Ordering number

006-1-9000 Flowmeter for slurry

Guarantee

1 year guarantee from date of delivery.
