

# Area Counter

## Use

The electronic Area Counter can be used for partial and total area counting. The Area Counter is easy to mount. No power cable is needed as the Area Counter is battery driven.

## Functions

- Partial area
- Total area
- Battery alarm
- Internal power backup, so data is saved during battery change
- Variable calibration settings

The Area Counter is provided with fixed termination and water-proof cable glands. If more functions are to be monitored simultaneously, we recommend the PX Combi 800 Series.

## Installation

The monitor is installed in the cabin with the fittings included. Installation guidelines for magnet and sensor are included.

If the monitor is preferably installed in the tractor cabin we recommend the Flex Counter Standard

## Technical specifications

Size:	114 x 72 x 33 mm
